

PLASTIC+POLYMERS

Protective Coating for Plastics and Polymers.

Nanoman Plastic + Polymers is a nanotechnology enabled coating formulated for plastic surfaces. The coating creates an easy to clean surface and negates the need for repeated cleaning and the use of chemical cleaning agents.

APPLICATIONS

- Sky lights and external cameras.
- Shower cubicles made from synthetic material.
- Plastic bench tops.
- Outdoor plastic furniture and playground equipment.
- Plastic and acrylic surfaces.
- Motor cycle helmet visors.

FEATURES and BENEFITS

- Strong hydrophobicity.
- Effective non-stick properties.
- Excellent easy-clean effect on contamination.
- Invisible to the human eye.
- UV stable.
- Simple streak free application.
- Reduces cleaning time and the use of chemical cleaners.
- Certified food safe.

KEY FACTS

- Available in 125ml, 250ml and 750ml and trade sizes.
- Apply at a rate of 7-10ml per m².
- Allow to cure for a minimum 60 minutes.
- In normal conditions, the coating will last 2-3 years.
- For motor cycle visors, reapplication is recommended every 6-12 months.

WHY NANOMAN

Nanotech Products specialises in the development, manufacture and supply of innovative nano based coatings. Through our Nanoman brand, we offer the most comprehensive range of nanotechnology enabled surface coatings currently available in Australia and globally. Nanoman products are all eco-friendly, easy to use and designed to provide maximum protection from liquids, environmental pollution and weathering.

Nanoman coatings provide surface protection for a variety of materials including glass, solar panels, stone, concrete, wood, metal, textiles, tile, stucco, block walls, motor vehicles, boats and equipment. Nanoman products reduce the need for the use of cleaning chemicals which are detrimental to the environment making the use our products a better choice for the planet.
